Software Engineer with a rigorous math background & experience building distributed systems.

WORK EXPERIENCE

Hyperscience

Remote / New York City, New York

Software Engineer - Flows Team

February 2025 – Present

- Lead developer for \$1M+ contracts, owning distributed workflows, meeting stringent SLAs.
- Design Python/Conductor workflows processing **100k+** daily documents for critical data.
- Develop an internal Python package and tooling, reducing development and testing cycles.
- Design and deploy cloud-native PoCs across diverse platforms AWS, GCP, Azure, & IBM.

Oracle Cloud Infrastructure

Redwood Shores, CA

Software Engineer - Source Control Management Team (SCM)

August 2023 – December 2024

- Engineered Oracle's new SCM platform using Dropwizard and JGit on OCI/Terraform.
- Lead developer on a distributed system built to migrate **30k+** Oracle repositories from existing Git platforms to OCI's new SCM system, seamlessly transitioning **1000s** of developers.
- Developed self-service APIs to automate and gate migration for hundreds of internal teams.

Software Engineer Intern - Compute Team (Backend)

May 2022 - August 2022

- Designed and developed a containerized Python application to monitor real-time VM efficiency by aggregating telemetry APIs across OCI Compute.

Software Engineer Intern - Console Team (Frontend)

May 2021 - August 2021

- Built a set of React components to display QR codes and banners for the OCI mobile app.

Rutgers Rail and Transport Lab

Rutgers University

Software Engineer - Lead Undergraduate Developer

September 2021 – November 2022

- Led a 12-developer team building a React/Node.js web app and a Python multi-processing pipeline to run an ensemble of ML models, processing 100k+ YOLO object detection events.

George Street Co-op

New Brunswick, NJ

Director and Committee Chair

September 2021 – August 2023

- Appointed to the Board of a 50+ year-old grocery co-op serving an NJEDA food desert.

EDUCATION

Rutgers University

New Brunswick, NJ

Computer Science, B.S. & Mathematics, B.S.

August 2023

- **Total GPA: 3.5/4.0, CS GPA: 3.9/4.0** *Awarded position in Professor Imielinski's Data [Hall of Fame](#)*

SKILLS & INTERESTS

- **Programming Languages & Tools:** Python, C, JavaScript, Java, SQL, Git, Unix, LaTeX
- **Full-Stack Development:** Node.js, FastAPI, React, Conductor, PostgreSQL, AWS, OCI
- **Data Science/ML:** NumPy, PyTorch, Scikit-learn, OpenCV, Matplotlib
- **Interests:** Mathematics, Cooperatives, Active Inference, Climbing, Cooking, Video Games
